Research & policy topics: Trade policy, international trade, supply chains, trade finance, sustainable finance
Nationalities: French, Czech

Professional Experiences

Finance For Development Lab - CEPREMAP

France

Senior economist

November 2025 - Today

- Lead and coordinate applied quantitative research on development finance, trade and debt sustainability, with a focus on low- and middle-income countries.
- Build and maintain harmonised trade, capital flow and firm-level databases for policy analysis.
- Conduct empirical analysis on trade finance, FDI and supply chains, contributing to policy-relevant reports for public institutions and international stakeholders.
- Coordinate analytical workstreams and supervise research assistants.

Joint Research Centre of the European Commission

Italy

Economist - Economics & Financial Resilience Team

September 2022 - September 2025

- Undertook quantitative policy analysis on sustainable finance, firms' financing conditions and competitiveness in the EU and emerging economies.
- Coordinated analytical support to the EU Platform on Sustainable Finance, including the development of quantitative indicators to monitor sustainable capital flows.
- Analysed the impact of climate change and climate-related shocks on supply chains, firm resilience and adaptation.
- Drafted and presented policy reports and briefs for EU institutions, engaging EU and international stakeholders through workshops and policy events.

Coface

France

Economist - Country-risk analyst

October 2017 - July 2022

- Conducted research on international macroeconomics, trade dynamics and firm behaviour to inform country risk assessments.
- Developed and analysed firm-level trade credit network databases to monitor globally trade linkages and shock propagation.
- Performed country risk analysis and macroeconomic monitoring of emerging economies, including trade vulnerabilities.
- Contributed to the design of country risk assessment methodologies.
